COMMERCIAL AND FINANCIAL.

SAN FRANCISCO, May 15th.

The all-engrossing subject here to-day is the approaching city election which takes place to-morrow, this makes business a secondary consideration, everybody being engaged electioneering The so called People's Party appear to thoroughly comprehend the situation, they know that defeat to them involves more than the loss of the mere local offices, it is the advantages its leading members derive from having their tools in power which enables them to prey on the public that causes them to dread defeat and to spend such large sums of money to secure the election of their nominees. It is our opinion, based on a knowledge of the method of conducting business in this city, that the defeat of the so-called People's Party would be a general benefit to every branch of business in the city, particularly so to the laboring classes, because it would break up a powerful moneyed faction, who for years have been able to control the financial and commercial affairs of the State by means of the secret but powerful agency of this extensive anti-Republican organization. We are under the impression that to-morrow will end the existence of the People's Party.

There was considerable excitement in town to-day on receipt of the news of the capture of Jeff. Davis, nearly every body ran their flags up to the mast head, and many took down the signs of mourning from their buildings in honor of the event.

A positive and Specific Remedy for diseases of the Bladder, Kidneys, Gravel and Dropsical Swellings,

This Medicine increases the powers of digestion, and excites the absorbents into healthy action, by which the watery or calcareous depositions, and all unnatural enlargements are reduced, as well as pain and inflammation, and is good for men, women and children.

For weakness arising from Excesses, Habits of Dissipation, Early Indiscretion, attended with the following Symptoms:

Indisposition to Exertion,	Loss of Power,
Loss of Memory,	Difficulty of Breathing,
Weak Nerves,	Trembling,
Horror of Disease,	Wakefulness,
Dimness of Vision,	Pain in the Back,
Hot Hands,	Flushing of the Body,

Universal Lassitude,	Pallid Countenance,

These symptoms, if allowed to go on (which this Medicine invariably removes), soon follow—

in one of which the patient may expire. Who can say they are not frequently followed by those "direful diseases,"

INSANITY AND CONSUMPTION?

Many are aware of the cause of their suffering, but none will confess. The records of the insane asylums and the melancholy deaths by consumption bear ample witness to the truth of the assertion.

The Constitution, once affected by organic weakness, requires the aid of medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT OF BUCHU invariably does. A trial will convince the most sceptical.

its support any who sincerely love their country and hate its enemies, nor is it the policy of the National Union party; and if there be any such found among the ruins of the Democratic party, let them be preserved from infamy.

And let not the mongrel conglomeration of secessionists, deceivers of the people and oppressors of the poor, falsely called the People's Party, venture to assert that we are making any sort of overtures to copperheads. We are addressing honest-hearted men in the Democratic party who have been almost destroyed and outlawed by traitors like those who are now endeavoring to create a destroying adversary. The Directory already have the *secessionists* and *leaders* of the late Democratic party, and we will take care of the *people* who are recoiling in dismay and horror from the gulf into which those very People's Party secessionists sought to hurl them headlong to infamy.

There are some thousands of citizens here and elsewhere who have called themselves Democrats and who have all the time vehemently denied al sympathy with secessionists and assassinationists. The horrible atrocity which has clad the land in mourning tore away the veil of prejudice that distorted their vision, and revealed the true character of the emissaries of treason who have been imposing on their credulity and weaving garments of infamy to be transmitted to their posterity. These citizens, having never borne arms against our country, but always professing to be Union men, must continue to live under our Government, and it is not the policy of either the Government or the National Union party to outlaw and force them by distrust and persecution to become a separate and hostile people, while they are declaring the sincerity of their attachment to the country. The FLAG ever has been and still is among the extremest of radicals; but it does not advise the proscription and destruction of American citizens who have been misadvised, misled, victimized and almost outlawed from the world by cunning emissary deceivers whom they are now disposed to hang upon the nearest tree.

Demoralized.

The *Bulletin* is exceedingly feeble and pottering last evening. It is demoralized, and has manifestly given up the fight. Shoddy stock down.

The above communication was at once committed the People's Party Convention, ascertained to be sitti in the Fifteenth District Court Room. An hour passi and no reply reaching the Union Convention, the Se tary was instructed to remind the People's Party mittee in the following terms:

Secretary Union Nominating Convention

This latter communication was refused by th geant-at-Arms of the People's Committee, who asser what was manifestly untrue, viz: "That his Commi had adjourned." The officer added, that "he had structions to receive no further communications evening." The note was subsequently, however, w considerable difficulty, got before the People's Com tee, which was adjourned shortly thereafter, no re having been attempted.

P. S. No answer had yet been received up to m night, May 14th.

Comment is unnecessary. Corruption is the order the day.

And of Such are His Defamers.

An ex-member of the Board of Education, nam Dodge, has been one of the foremost among t persecutors of Mr. Pelton. He is a dentist by p fession. His character, and consequently the amou of credence that his assertions are entitled to, m be inferred from the following incident: So time ago he undertook to fill a lady's teeth w gold, for nearly one year after the performance the operator this lady suffered the most viole pains in her jaws, accompanied by inflammati and headaches, until the acuteness of her sufferin compelled a resort to another dentist, (Dr. Knowle It was then discovered that the teeth had been fill with tin-foil covered with gold, two metals whi act together like a galvanic battery, and can o be employed as above with great injury to th tem. That the lady did not lose her jaws is a w der. The husband sued for damages, and the la has not yet recovered from the effects of the i sition practiced upon her.
